# A FEEBLE WAVERING

The Range of the Day's Movement on the Stock Market Less Than a Point.

The Decrease in Gross Earnings Make Unfavorable Showing, Except for Union Pacific.

(By Associated Press.)

NEW YORK Feb. 29.—The feeble wavering of prices in to-day's stock market represented nothing more than the fatuous attempts of a small room trader to find a movable spot in the market for either an upward or downward course. The range of the day's extreme movement was an average of considerably less than a point, and the extreme from Saturday's level was not more than a small fraction. The Eries were slightly heavier than the average, which was accounted for by the extreme unfavorable showing of net earnings for January, with a fall of nearly a million dollars from the level of last January, due both to an increase in gross earnings.

Railroad reports for the day were generally unfavorable, with the notable exception of Union Pacific, which was able to show a reduction of expenses to help out the increased gross. The stock got no benefit from it until the pressure upon Eric and the general list was relaxed. The break in the London copper market burt Amalgamated Copper in the initial mark, but it recovered later.

The dread of a Northern Securities decision was plainly an influence in the market, but the postponement with another period of suspense for the market unlocked no animation in the trading. Prices hardened appreciably in the afternoon.

The coal conference over wages was a

COTTON MARKETS.

NEW YORK, Peb. 39.—The cotton market cened strong at an advance of 22233 points with trading active and atended by considerable excitement. The initial gain was rather more than the cotton of the initial gain was rather more than the cotton of the initial gain was rather more than that recently noted. In fact, the buying could be traced to no special source. Wire houses and commission houses generally seemed to have a good supply of buying orders, leading to a belief that the demand was in response to the strong statistical situation as reflected by the week-end visible supply statement, which undustedly received a wide cheat, and the buying content, which undustedly received a wide cheat, realising formal or during the simply rendered the market hather irregular, as the general undertone was very firm. Reccipts for the day were rather heavier, but the estimates for to-morrow show-ed a continued light movement, and the proshather frequier, as the general undertone was very firm. Receipts for the day were railer heavier, but the estimates for to-morrow showed a continued light movement, and the prospect of a cotton famine later in the season seemed to restrice selling, even for profits. At any rate the advance carried, Marchi to 16.01 and May and July to 13.41. These prices represented an advance arried these represented an advance of the season of the

## Y. M. C. A. BUILDING FOR THE UNIVERSITY

The Possibility Made a Surety if Its Friends All Aid.

(Special to The Times-Dispatch.) CHARLOTTEVILLE, VA., Feb. 29 .-For many years the need for a Y. M. C. failures to provide for it, now the building is assured, if only the immediate friends of the University are practically interested in her welfare,
The late William E. Dodge, of New

York, a general philanthropist, has the highest claim in the affections of young men because of his unceasing interest in their Christian Associations. This, mani-

men because of his unceasing interest in their Christian Associations. This, manifested in many ways, became most potent in his influence in setting on foot the intercollegiate movement. Among his last interests was his desire to build at the university of Virginia a Y. M. C. A building, But there is a proviso—a reasonable one—that the University's friends in Virginia and elsewhere shall raise an endowment of \$20,000.

To Dr. Charles W. Kent, of the chair of English literature, and Mr. Hugh M. McIlhany, secretary of the association, this proposition has been known for some months, during which, with their assistance, the architects, Parish and Schroeder, of New York, have already prepared the plans for the new building. The architects, enthusiastic about the University's beauty, have labored with artistic zeal to bring their creation into gerfect harmony with the prevailing scheme and have been entirely successing.

ful. This afternoon Mr. John R. Mott, secre-This afternoon Mr. John R. Mott, secretary of the World's Student Federation, made official and authoritative public announcement of Mrs. Dodge's beneficence at a mass-meeting of professors and students in the University Public Hall.

The good news was joyfully received, and a beginning was at once made to comply with Mrs. Dodge's condition.

The building, which may be under construction when spring opens, will be located on the Y. M. C. A. campus, facing the north front of the rotunda and not far distant from the Fayerweather gymnasium.

Mainly About People,

## Delegates to Chicago-To Endorse Roosevelt.

Endorse Roosevelt.

The Third District Republican Convention will meet at noon to-day at West Point and elect two delegates and two alternates to the national convention at Chicago, choose a momber of the State Executive Committee, and adopt a resolution endorsing Roosevelt for re-election. The indications are that Morgan Treat will be re-elected executive committeem or the respection. The indications are that Morgan Treat will be re-elected executive committeem or the respective of the consent delegates to the national convention. Possibly James H. Hayes may be one of the delegates, but this is not considered likely Hayes may be inade an alternate.

The convention will be called to order by District Chairman C. P. Snead, 31 King William, in the Opera House. The first test of strength between the rival factions will probably come over the choice of a permanent chairman. The convention will be composed of forty-one delegates, as follows: Richmond, 14; Manchester, 2; Chestorfield, 4; Goochiand, 4; Hanover, 6; King William, 4; New Kent, 2.

AGNEW MEN WILL CONTROL.

The Slemp, of anti-organization, faction has the majority of the delegates from Richmond and those from Manchester, but practically all the others are said to be for Treat for executive committeeman and for delegate to the national convention. Postmaster Wray T, Knight, of this city, is a delegate to the convention, and will probably be made a delegate to Chicago.

Those going from this city will leave the Southern Railway station at 0 A. M. The convention will hardly consume more than an hour, as there are no contesting delegations, and the work of the resolutions committee will have been prepared in advance, and its adoption will be favored by all.

The State convention will meet in Norfolk on Thursday, March &d. Despite conflicting reports, it is said that State Chairman Agnew will be re-elected, and that Mr. Agnew and Marshal S. Brown Allen will be another if he consent to accept the trust, and either Mr. Bowden, of Norfolk, or Congressman Slemp wil
